## **OVERALL DIMENSIONS**

UNLESS OTHERWISE SPECIFIED, DIMENSIONS ARE IN MILLIMETERS	PICO MES						
	Part Name						
DO NOT SCALE DRAWING	ASSEMBLY, COMPLETE, 8 POSITION BIT TRAY						
BREAK ALL SHARP EDGES AND REMOVE BURRS							
THIRD ANGLE PROJECTION	NAME	NAME KEVIN KIM-NYBAKKE		DATE 08/24/2020			
	SIZE	PART NO. 100	001-0	)-A1			
MATERIAL	FINISH	SCA	1:1	Mass	SHEET 1 of 2		

## **MOUNTING NOTES:**

Three mounting locations are provided on the bottom of the Bit Tray. An optional fourth mounting location is provided that requires removal of the battery cover fastener. All four mounting holes on the bottom of the Bit Tray are sized for M3 Delta PT threadformer screws. Different length fasteners will be required depending on the thickness of the mating bracket. The optional fourth mounting location requires a fastener that is 4mm longer than the 3 other fasteners.

## For bracket thickness:

- **2.0mm or less**: 3x M3x8 Delta PT (McM 96817A330). Optional: 1x M3x12 Delta PT (McM 96817A370)
- **All other thicknesses**: M3 Delta PT fastener should be sized to achieve 6-8mm of thread engagement. Greater than 8mm of thread engagement will result in the fastener bottoming out in the housing, and less than 6mm of thread engagement may increase chance of stripping out threads.
